## About IIT Ropar

Indian Institute of Technology, Ropar is one of the eight new IITs set up by the MHRD, Government of India, to expand the reach and enhance the quality of technical education in the country. This institute is committed to providing state-of-the-art technical education in a variety of fields and also for facilitating transmission of knowledge in keeping with latest developments in pedagogy. These two areas of focus will enable students to gain exposure to recent trends in their chosen domains of study and gain practical experience through a wide variety of activities the institute facilitates in its own campus and arranges for in collaboration with industry and other institutes.

## Research @ IIT Ropar

IIT Ropar puts immense emphasis on promoting cutting edge research and publications of high quality and not quantity. We firmly believe that this is the key to our recognition in the international research community. We offer PhD degrees in all disciplines that we offer. At present, we have 389 PhD scholars in the Institute. 74 PhD scholars have successfully defended their thesis and 142 scholars have joined the PhD program during the last one year. Over the last year, as many as 267 papers have been published in various high impact international journals. This has already placed us at the **top of all the new IITs for having the highest average citations (Average Citation Per Paper, ACPP of 11.96 as on 26th November, 2018 SCOPUS data).**

## About Research Conclave

The sophomore edition of Research Conclave will be organized at IIT Ropar main campus on 20-21<sup>st</sup> April 2019. The conclave aims to gather researchers from diverse areas in science, engineering and humanities and social science. The conclave will work as a catalyst in readdressing the academic research challenges and putting forth tremendous efforts in the direction of the betterment of society. The aim of this conclave is to bring together scientists and scholars on a common platform to share and exchange new ideas and applications experience face to face, to establish research relations and find collaborators for future work which may open many gates for interdisciplinary research.

The conclave will include a variety of plenary lectures, invited talks, poster presentations and oral presentations.
