

How to add random question in your quiz

1. Create a quiz and click on the newly created quiz. Go to edit as below.

2. On Right hand side you will see the category list as below. Which show the parent category and subcategory from where you can add questions.

3. You can create a category and sub category as shown below:

Click on category tab as shown below,

Test Course

In this case we have selected 4 questions out of 5 questions and added 3 questions to our quiz. 3 random questions will add to the quiz from 4 selected questions and the 5th one (which we have not selected) will not be added in random question.

- All the add questions will be shown on the left side of the screen as shown below.
